

CLAIMS GENERATION

- Prints HCFA 1500 forms on any desired claim, regardless of age.
- Performs extensive error checks on electronic and batch bill paper claims, reducing rejections.
- Retains patients' past historical insurance companies, both Primary and Secondary and can automatically re-file claims based on dates of service.
- Auto Re-Bill feature allows all claims older than a "user specified" date to be re-billed.

ELECTRONIC MEDICAL RECORDS

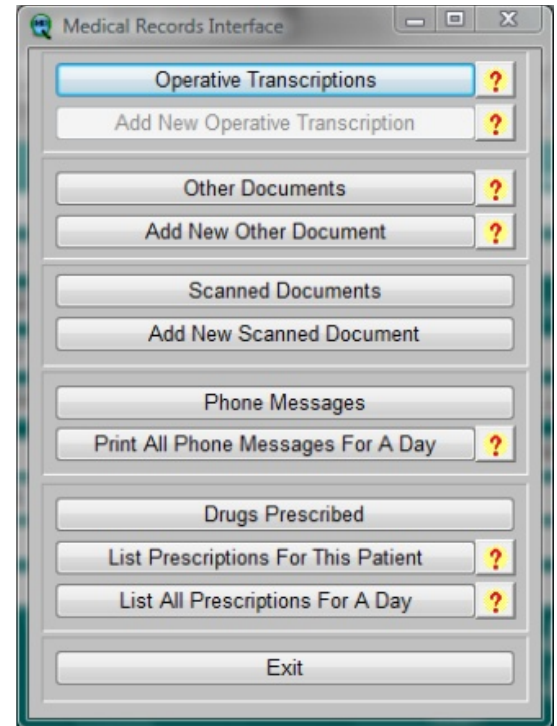

- Quick-MD's seamlessly integrated Electronic Medical Records (LITE) package will give users the ability to create and/or pull up patient's transcription, dictation, and hospital reports directly from each patient's demo screen or ledger. Create custom templates in Microsoft Word, virtually eliminating all typing. Even offices using an outside transcription service, will have the ability to attach their documents directly to the corresponding patient's claim. E.O.B.'s can even be attached to the claim paid. The documents can be viewed, printed out, faxed or e-mailed with the stroke of a key. Also, both phone message and prescription tracking is included, complete with reporting. These features will drastically reduce paperwork and the need to constantly look for charts!
- Quick-MD has the ability to integrate with any 3rd party EMR of your choice.

REPORTING CAPABILITIES

- All reporting capabilities are contained within Quick-MD and very easy to use.
- Four Powerful Queries allows users to easily report on patient files, charges, payments and adjustments and generate thousands, yes thousands, of custom reports in seconds!
- Quick-MD is a real time system meaning data can be accessed at any time - no need to wait for day end or month end.
- Generate the information needed now! All users enjoy system while reports are being run
- Allows for date range specific report generation for any time period!
- Standard reports include:
