

## BCBS FTP Usage

This document explains how to transfer and receive files from bcbs of la using filezilla.

1. To connect goto file / site manager / highlight BCBSLA and click connect or click on the icon that looks like two computers and choose BCBSLA.
2. Enter your password if asked for it.
3. The first time that you connect it will ask you to accept a certificate. You can do that by clicking the “always except this cert” box.

## BCBS FTP Usage

FileZilla - Connected to bcbsla [cftp.bcbsla.com]

5. To sort your files by date click the date column on the remote site.

6. To set the bcprpt folder, as the working folder, double click on the icon for it under local site.

## BCBS FTP Usage

The screenshot shows the FileZilla interface connected to the BCBS FTP server. The local site is C:\vebill\bcprft\ and the remote site is /P0004815/. The local file list includes various DAT and 835 files. The remote file list includes various .out files and one HTML file. A red arrow points from the file 'BCTA1.out' in the local list to the file 'BCTA1.out' in the remote list.

7. Drag the newest files, one at a time, in to the local directory. If you try to download a file and it comes over as 0 bytes, or blank, that file has already been downloaded.

8. If you want to keep your old reports you will need to rename them, after you download them, since bcbs always uses the same file name.
